

Pelco Press Online

Go Paperless, Go Green

Pelco Press is the essential resource for Pelco by Schneider Electric information. Twice a year, Pelco Press highlights the people, technologies and events happening behind the scenes with the industry's top video security and surveillance products.

From high-profile application articles, to the latest in product and technology overviews, Pelco Press covers it all – now both in print and digital online form.

The powerful, interactive online version now offers even more information and features exclusive online content found nowhere else. As you flip through the online issue, click on the video icons to watch a story-related video, use mouse-overs on keywords for additional definitions and information and click on icons for additional white papers, related articles, specification sheets and more.

With the new page-turn presentation of each issue, you can zoom in, experience and print the information you need – when you need it. Browse our extensive collection of individual features articles and back issue as well.

The online issue also features search capability to help you quickly find the story you're looking for without flipping through every page of the magazine.

Want to share something innovative or informative from a recent issue of Pelco Press, but don't have the time to wait for

an extra issue to be mailed out? Problem solved. Simply share the link to the online issue and instantly update a customer or colleague on the story you discovered.

To view Pelco Press online, visit the Pelco.com home page and click "Pelco Press Magazine" in the left-hand column of the page. That will take you to the Pelco online newsroom, where you'll find a link to view the full issue of Pelco Press, and an individual link list to view a printer-friendly PDF of each story published in that issue.

Share Your Story

You need powerful, effective no-cost marketing tools. We need great application and installation stories. Let's work together. Pelco marketing is always looking for stories that can make engaging case studies for Pelco Press and Pelco.com. From standard video installations, to IP-based systems, to unique applications – we're interested in hearing from you.

SPECTRA IV:

**The Most Complete Solution Possible
Performance & Reliability you can count on.**

Spectra is a symbol of security the world over. For more than a decade this industry-leading family of high-speed dome systems has set the benchmark for image quality, low light performance and precision control. Trusted to protect the world's most treasured landmarks, Spectra defines the standard for innovation and performance.

Spectra IP-based remote monitoring systems are specifically designed for the strongest - and unique - demands of video security. Built upon open architecture, these camera systems integrate with more than 60% of the marketplace.

Spectra High-Speed Dome Systems
To meet or exceed Spectra's 10-year track record high-speed dome systems designed for the unique demands of video security, Spectra continues to set the standard for image quality, performance, technical support, reliability, precision control, and a wealth of options that make it the best choice for any application.

Advanced Optics
Spectra's custom-made optics are only as good as the original system. Spectra's custom optics deliver the industry's best optical performance. Independent labs and lighting conditions Spectra's advanced Wide System Range (WSR) adapts for 20 dynamic lighting camera modes in one. These systems can meet all lighting conditions with models that include an advanced low-light (LLL) kit available.

In order to deliver the very best optical performance, a new series of Spectra's High-Speed Domes have been developed. Available throughout the Spectra family, these WSR optics encapsulated results and ensure the Spectra camera performs the best optical performance in the industry.

Exceptional Performance
There are many reasons why Spectra is considered the most reliable, most trusted video monitoring camera in the world. These reasons include the fact that Spectra's experience and track record of more than 20 years of industry leading dome camera design and manufacturing.

Key understanding why today's security professionals demand Spectra's camera products and solutions. Spectra camera meet the rigorous demands of security applications. From critical assets, border security, transportation. The largest of all, the fact that Spectra's cameras, Spectra's design and build, leaving your Spectra camera for an extended service life.
