You're Invited to Experience a Higher Definition of Security

Pelco IP Products Road Show, 2009

Only Pelco has the resources, experience, and services to deliver the world's most innovative integrated IP video security solutions. Join us for a Pelco IP Products Road Show and see the technologies that will shape the industry for 2009 and beyond.

Sarix IP Mega-Pixel Cameras

For too long, network-based cameras failed to address a number of issues that are critical to security applications. But with Sarix technology, best-in-class imaging science delivers high-definition (HD) resolution, advanced lowlight capabilities, consistent color science, and fast processing power.

Endura Enterprise-class Solution

With more than 150,000 channels of IP video installed, and more than 30 petabytes of recorded video safely managed worldwide, Pelco Endura systems offer the reliability, scalability, flexibility and performance that customers demand in an enterprise-class IP-based video security system.

Pelco Hybrid Video Recorders

Pelco's suite of hybrid video recorders offers security professionals the flexibility to record and display both IP and analog cameras. Built upon open architectures, Pelco HVRs accept Pelco as well as IP cameras from other industry manufacturers. The result is a suite of recording technologies delivering a tailored solution for your video security requirements.

Pelco Mobile Product Showcase

In addition to this very informative presentation, the famed Pelco Mobile Product Showcase will also be on hand to provide live demonstrations for the entire Pelco product line.
