

# Esprit Anti-Corrosion Fixed

## RELIABLE VISIBILITY IN CORROSIVE ENVIRONMENTS

Esprit Anti-Corrosion Fixed provides corrosion-resistant coverage for ports, shipyards, coastal roads and industrial sites exposed to salt and chemicals. Its 40x zoom and clear imaging help teams track vessels, watch lanes and inspect structures with confidence in harsh weather.

### MAX CORROSION RESISTANCE

Reduce replacements and downtime with AISI 316L stainless steel and polished surfaces that resist sea salt, chemicals and corrosion in marine and industrial environments.

### RATED FOR HARSH WEATHER

Maintain uptime from -40° to 65°C with IP66/67/68/69 and NEMA 4X/6P ratings plus heater and fan that keep the camera operating in rain, spray, humidity and high winds.

### CLEAR IMAGING IN TOUGH LIGHT

Capture clear detail with powerful 40x zoom, wide dynamic range and low-light compensation that keep images usable in glare, deep shadows and low illumination.

### CERTIFIED FOR MARINE AND RAIL

Deploy confidently on ships, offshore platforms, ports, bridges and trackside sites with Lloyd's Register Marine Type Approval and railway standard compliance.

### SMART ANALYTICS

Focus operators on real events with Pelco Smart Analytics that detect and classify people and vehicles and trigger alarms for loitering, objects in the area and other behaviors.

### OPEN, FLEXIBLE INTEGRATION

Simplify system design with ONVIF conformance for easy integration with leading VMS platforms, helping you reuse existing infrastructure while protecting devices and data.
