

# Esprit Compact PTZ

**RUGGED WIDE-AREA COVERAGE  
IN A COMPACT FORM FACTOR**

Esprit Compact PTZ brings hardened coverage to cities, ports, airports and roadside or industrial sites exposed to vibration and harsh weather. It helps teams oversee perimeters, follow movement and zoom into activity with long-range optics and optional IR or white light.

## HARDENED FOR EXTREME SITES

Maintain coverage in extreme sites with IP66/67 and NEMA TS2 ratings tested for shock, vibration and temperature so the camera stays online in wind, rain and humidity.

## HIGH-RESOLUTION PTZ COVERAGE

Minimize blind spots with 2, 4 and 8 MP models and up to 40x zoom that give operators wide-area coverage and detail to identify people, vehicles and incidents.

## FLEXIBLE ILLUMINATION OPTIONS

Improve visibility in darkness with strong low-light performance plus optional IR or white light illuminators for discreet viewing or active deterrence in high-risk zones.

## SMART ANALYTICS

Focus operators on real events with Pelco Smart Analytics that detect and classify people and vehicles and trigger alarms for loitering, objects in area and other behaviors.

## SIMPLE DEPLOYMENT AND SERVICE

Speed up installation with a compact design, accessory power supplies, mounting brackets and illuminators that reduce setup time and simplify field service.

## OPEN, FLEXIBLE INTEGRATION

Simplify system design with ONVIF conformance for easy integration with leading VMS platforms and deploy confidently in regulated environments with NDAA compliance.
