

ExSite Enhanced 2 Series PTZ

EXPLOSION-PROOF PTZ COVERAGE FOR HAZARDOUS AREAS

ExSite Enhanced 2 Series PTZ provides explosion-proof coverage for restricted areas with flammable gases in tank farms, terminals and process units. It delivers wide-area views so teams can track activity and zoom in on issues without sending staff near hazardous equipment.

EXPLOSION-PROOF COVERAGE

Enhance safety in restricted hazardous zones with explosion-proof housing designed so internal sparks or heat don't ignite flammable gases or dust.

RUGGED STAINLESS-STEEL HOUSING

Extend reliability with AISI 316L stainless-steel construction that resists corrosion and harsh cleaning on offshore platforms, in refineries and chemical plants.

LONG-RANGE PTZ PERFORMANCE

Capture a wider field of view with smooth PTZ control and powerful optical zoom that let operators scan large areas and focus on valves, walkways and equipment.

RELIABLE IN EXTREME WEATHER

Maintain visibility year-round with wide temperature ratings and sealed housing that withstands wind, rain, snow and airborne contaminants.

SMART ANALYTICS

Enhance safety and compliance with Pelco Smart Analytics that detect and classify people and vehicles and trigger events for loitering or objects in the area.

OPEN, FLEXIBLE INTEGRATION

Simplify system design with ONVIF conformance for easy integration with leading VMS platforms and deploy confidently in regulated environments with NDAA compliance.
