

Esprit Anti-Corrosion PTZ

WIDE-AREA COVERAGE IN CORROSIVE ENVIRONMENTS

Esprit Anti-Corrosion PTZ delivers corrosion-resistant coverage for ports, shipyards, marine terminals, coastal roads and chemical plants. Wide-area pan-tilt-zoom and 40x optics help teams patrol yards and approaches and focus clearly on incidents from a safe distance.

MAX CORROSION RESISTANCE

Reduce replacements with AISI 316L stainless steel and polished surfaces that resist sea salt, chemicals and corrosion in marine and industrial environments, backed by Lloyd's approval.

RATED FOR HARSH WEATHER

Maintain visibility from -40° to 65°C with IP66/67/68/69 and NEMA 4X ratings plus heater and fan that keep the camera operating in rain, spray, humidity and high winds.

LONG-RANGE PTZ COVERAGE

Minimize blind spots with wide-area pan-tilt-zoom coverage and 40x optical zoom that reveal critical detail across docks, yards and coastal roads.

CLEAR IMAGING IN TOUGH LIGHT

Maintain usable images with true wide dynamic range and low-light compensation that handle glare off water, deep shadows under structures and low illumination at night.

SMART ANALYTICS

Focus on what matters with Pelco Smart Analytics that detect and classify people and vehicles and raise events like loitering or objects in area for faster response.

OPEN, FLEXIBLE INTEGRATION

Simplify system design with ONVIF conformance for easy integration with leading VMS platforms, helping you reuse existing infrastructure while protecting devices and data.
