

Pelco + Milestone Systems: Better together

INTELLIGENT SECURITY ON A UNIFIED PLATFORM

Pelco and Milestone Systems unite to deliver a comprehensive security environment that simplifies daily use and offers robust, integrated features. This partnership leverages Pelco's advanced security devices with Milestone's industry-leading open-platform video management software (VMS), XProtect.

SMART SEARCH

The **Pelco Connect** plugin enables Milestone XProtect users to quickly access rich metadata from Pelco's Smart Analytics and robust forensic search capabilities.

STREAMLINED DEVICE COMPATIBILITY

Get out-of-the-box compatibility, simplifying deployment of Pelco's ONVIF-conformant devices. All tied together with a unified XProtect interface to help reduce security blind spots.

OPTIMIZED INCIDENT RESPONSE

Configure alarms and events directly in Milestone xProtect using Pelco's Smart Analytics to enhance situational awareness, and improve incident response times.

GROWS WITH YOUR NEEDS

Reliably scale security systems with Pelco's broad line up of ONVIF-conformant devices and Milestone XProtect's open platform architecture.

Pelco and Milestone Systems are better together. Providing security professionals with an open-platform VMS and integrating high-quality cameras and sensors with Smart Analytics, to speed up incident response, with the flexibility to grow with their future security demands.
