

# Pelco Connect

BRIDGING PELCO INNOVATION  
WITH YOUR VMS

Save time, streamline workflows and maximize your devices within your trusted VMS. Pelco Connect, a free plugin, seamlessly integrates Pelco cameras and smart sensors with Genetec VMS, enabling advanced analytics, powerful forensic search and native Smart Analytics configuration.

## POWERFUL FORENSIC SEARCH

Filter footage using Pelco's metadata, including vehicle type, clothing color and travel direction, for faster and more precise investigations.

## SMART ANALYTICS SETUP

Define regions of interest, set trip lines and add exclusion zones directly within the Genetec interface, no additional tools required.

## SEAMLESS VMS INTEGRATION

Native integration with Genetec provides access to advanced Pelco features in a single, easy-to-use interface.

## FREE AND EASY TO USE

Pelco Connect is free and provides advanced functionality to maximize your Pelco devices without additional costs or complexity.
