

# Pelco + Salient Systems: Better together

## INTUITIVE VIDEO MANAGEMENT FOR DEPENDABLE SECURITY

Pelco and Salient Systems partner to provide an intuitive and dependable video security offering. This combination brings together Pelco's reliable security technology with Salient's user-friendly CompleteView VMS, designed for simplicity and efficiency in daily security operations.

### COMPREHENSIVE CAMERA COMPATIBILITY

Customers can confidently integrate Pelco's wide range of ONVIF-conformant devices, certified with Salient's CompleteView VMS, ensuring straightforward deployment and quickly activating their advanced features within Salient's user-friendly platform.

### ACTIONABLE INTELLIGENCE

Pelco's edge analytics feed data directly into Salient Systems powerful search and alert functions, providing operators with insights into unfolding events and supporting more precise investigations.

### OPTIMIZED FOR PERFORMANCE AND BANDWIDTH

Pelco cameras deliver high-quality footage complimenting Salient's unique Dynamic Resolution Scaling ensuring that crisp video from Pelco cameras is efficiently transferred to operators regardless of network conditions, while also minimizing edge device storage consumption.

### INTUITIVE & INFORMED INVESTIGATIONS

CompleteView's easy-to-navigate interface allows intuitive search and playback features powered by Pelco's Smart Analytics to simplify incident investigation and evidence retrieval.

**Pelco and Salient Systems are better together. Offering a straightforward yet powerful video management experience, combining Pelco's reliable devices with Salient's user-centric VMS, for accessible and high-performing security operations.**
