

AI Label

Pelco Smart Sensors

Description

AI uses built-in analytics to detect vape, smoke, aggression, gunshot sounds and environmental changes—without relying on cameras. It enhances situational awareness in privacy-sensitive areas by identifying anomalies and triggering real-time alerts to help security teams respond quickly.

Model Purpose

- Environmental anomaly detection
- Audio Analytic events
- Audio classifications
- Keyword activation for emergency

Components

Model Trained with Customer Data	No
1st or 3rd Party Model	Both
Generative AI	No
Type of Media AI Can Process	Audio, Environmental
Customer Data AI Can Access	
Data Ownership	Customer Owned & Controlled
Data Retention	Customer Determined

The customer determines the final configuration of how the AI within this product is used. For more information visit: motorolasolutions.com/ailabels.
