

Pelco devices on System Surveyor's platform

DESIGN PHYSICAL SECURITY SYSTEMS FASTER

The new Pelco and System Surveyor partnership integrates Pelco's hardware directly into System Surveyor's cloud-based platform. Integrators, resellers and consultants can now access our full product catalog to design, manage and collaborate on physical security system projects with speed and accuracy.

INTEGRATED PELCO CATALOG

Access the complete, up-to-date Pelco product line directly within System Surveyor for accurate system placement and design.

VISUAL SITE PLANNING

Drag-and-drop Pelco devices onto digital floor plans and instantly visualize coverage areas to ensure optimal placement.

AUTOMATED BOM GENERATION

Create an accurate Bill of Materials (BOM) automatically as you design, simplifying quoting, ordering and procurement.

REAL-TIME COLLABORATION

Share live project designs and documentation with clients and stakeholders to eliminate design errors and speed up approvals.

Whether you're new to System Surveyor or already a user, you can unlock the power of this partnership. To learn more, contact your Pelco representative or visit the [System Surveyor Pelco partnership page](#).
