

Esprit Compact Bispectral PTZ

Compliant with NDAA 2019
Section 889

Mission-critical industries require highly-reliable security in installations that are often located in demanding and remote environments. They must ensure round-the-clock security for their wide perimeters, necessitating robust video security systems that can flawlessly operate in all environmental, lighting and weather conditions. Get a complete picture of the landscape with the Esprit Compact Bispectral that combines a visual and a thermal camera into a single device. The visual camera recognizes and identifies a target, while the thermal camera achieves greater detection accuracy, even in adverse weather and lighting conditions. Both cameras are perfectly aligned with the movements of the PTZ, providing an efficient 360-degree solution to safeguard perimeters and borders, critical infrastructures, traffic management, railway and beyond.

Features

VISUAL CAMERA

Get clear images in most weather and lighting conditions with 2 MP resolution, Low Light Performance and true Wide Dynamic Range. See afar in great detail with long-range zoom.

EASY INSTALLATION

Simplify installation and maintenance processes by installing only one camera instead of two. The compact design of this camera facilitates its installation, particularly in remote areas.

SUPERIOR DETECTION

Never miss a single detail with a camera that provides a thermal and a visual vision for better decision-making and reduced false alarm rates.

H.264 AND H.265, SMART COMPRESSION

Retain high image quality and optimize compression levels to minimize bandwidth and storage needs.
